E. SESSION SUMMARY

SG1A

The head of the Cali Cartel is orchestrating a large shipment of cocaine transported by air to Mexico to take place within the first three weeks of February. This drug shipment will follow known routes through the San Andreas Island to several locations in Mexico. There are search lights featured at the designated destination and it will be a night time activity. Important dates for organizing this activity include the 7th and 8th of February before Valentines Day. There is a large profit to be made from this action filled event. There will be a marked increase in drug trafficking by the Cali Cartel in April through June of this year.
